Madrid, Spain | EU Citizen | (+39) 346 025 2944 | chris2003mate@gmail.com | [LinkedIn](#) | [GitHub](#)

Business Analytics & Data Science MSc candidate at IE University with hands-on experience in financial modelling, valuation, pricing strategy, and business case development through co-founding ArgusQ. Built bottom-up model quantifying EUR 1.4m in projected annual savings, supported pricing strategy and commercial pilot negotiation, and developed DCF and sensitivity analysis for investor materials. Seeking investment banking, private equity, transaction advisory, or corporate finance internships requiring financial modelling, valuation, market analysis, and investment judgment.

EDUCATION

MSc Business Analytics & Data Science | IE University, Madrid Sept 2025 – Jul 2026
Coursework: Machine Learning, Financial Analytics, MLOps, Big Data Engineering, Statistical Modelling

BSc Digital Economics & Business | Università Politecnica delle Marche, Ancona Sept 2022 – Jul 2025
Thesis: VAR, GARCH, and Granger causality applied to HFT market data | *Exchanges: UCLL Leuven; CEU San Pablo Madrid*

FINANCE, VALUATION & STRATEGY EXPERIENCE

Co-Founder & Financial Lead | ArgusQ, IE University Oct 2025 – Present

- Built bottom-up operating model across 2,945 production batches, quantifying EUR 1.4m in projected annual savings and supporting pricing strategy, pilot negotiation, and commercial validation with European industrial client Indetruck.
- Developed pre-seed investor case including DCF valuation, sensitivity analysis, unit economics, ROI scenarios, and market sizing based on 15+ structured industry interviews.
- Prepared investor and client materials translating operational savings, pricing assumptions, market validation, and ROI scenarios into a finance-led commercial case.

DCF & Comparables Engine | EquityLens, Personal Project 2025 – Present

- Built Python-based valuation tool automating FCFF DCF, WACC calculation, trading comparables, and sensitivity analysis using public company financial data.
- Applying model to listed industrial company case study to produce valuation range, peer benchmarking, key operating assumptions, sensitivity outputs, and investment memo.

NordFiber AG Strategic Review | StepChange Consulting Case 2026

- Developed portfolio reshaping thesis for European industrial business, recommending PM1 mothballing, kraft specialty pivot, and disciplined capital allocation based on margin pressure, asset positioning, and strategic fit.

Capital Allocation Analysis | Apple Global Markets, IE University 2026

- Analysed revenue performance across 30+ markets, identifying product mix, channel strategy, and urbanisation as key drivers explaining 64% of revenue variance.

Global Consulting Program | UNIVPM & Ohio State University 2025

- Led 6-person cross-border advisory team for Rainbow S.p.A., coordinating market research and strategic analysis presented to senior management.

ADDITIONAL EXPERIENCE

Hospitality Manager | King Edward Royal Pub, Ancona Feb 2021 – Sept 2025

- Managed operations and P&L exposure for EUR 400K revenue venue; promoted within 12 months and built data-driven scheduling model that improved staff retention by 15%.

Waiter & Barman, Events | Hotel Fortino Napoleonico, Portonovo Jun 2022 – Sept 2022

- Supported high-end wedding and hospitality events in a four-star hotel setting, maintaining service standards in fast-paced, client-facing environments.
